

Excellence has become a key requirement sought by everyone... It even became a feature of the times we live in ... There is no room in the current fast paced era for the non-creative and the non-talented.

If this characterizes excellence and creativity in general ... it is more worthy for the educational sector to assume the leadership and responsibility for this system in the various walks of life.. Especially if this is a natural response to Allah's doctrine which called for perfection in everything ... The Messenger of Allah (peace be upon him) said: Allah loves if you pursue a work, you perfect it...) Allah Almighty described our nation as the best nation... and honored and privileged it with the Holy Quran revealed to the best of Messengers.

Therefore, our lives should be consistent and identical to this divine distinction that should drive us and motivate us to work hard so that we become pioneers and achieve the distinction between all nations of the world at all times and places.

Hence the sharp vision of the patron of the award, His Highness Sheikh Tamim bin Hamad Al Thani, to honor distinguished individuals in the State of Qatar at all levels and from all categories, and promote quality standards in the educational system ... and inspire the spirit of fair competition, based on interaction between individual and collective efforts.

If reaching to the peak requires hard work and continuous pursuit, then maintaining this position requires double the efforts ... definite determination ... and constant perseverance because reaching excellence and creativity is our goal in order to achieve victory in our religion, in life and the life hereafter. Furthermore, the education excellence award, with this enlightened vision, is a significant addition to the educational system and the educational development in the State of Qatar, for it depicts motivation for contribution, creativity, innovation and search for all that is new and useful for the educational process.

We regard the award as a mover of capacities ... a motivator of energies and an investment of all abilities in an appropriate fashion. The award is also a prize with an objective to establish edifices and mobile houses of experience for the categories of the award that include: outstanding student award in both categories platinum and gold ... outstanding teacher award and the award for distinguished school, as well as scientific research award.

This award is a kind of invitation for the sons of the homeland to work efficiently ... through which we continue our efforts that seek to achieve excellent education at all levels ... a promising education, closely linked to accomplishing comprehensive and sustainable progress and development for our country and our nation ... Hoping to reap the benefits of building a society of knowledge according to the ambitious vision set by our wise leadership.

Sheikha Ahmed Al-Mahmoud
Minister of Education
Secretary-General
Supreme Education Council
Head of the Award Board of Trustees
