

In a world characterized by rapid change, it is our duty to provide our young generation with the knowledge and the skills that enable them to participate in making the change, not just cope with it. This is what our nation is striving to achieve under the guidance of His Highness the Amir.

Therefore, as we draw our policies and set our plans, we have to realize the significance of the new phase created by our educational system, which is witnessing steady development. A stage during which we aim to achieve further progress and prosperity for our precious country in all fields.

Educational excellence is an indicator of merit and excellence at work, because it means efficiency and sense of duty, which nations require to achieve progress.

This is the true concept of educational excellence and the symbolic celebration of its day, that limitless distinction, just like human creativity.

Therefore, we are keen to honor our young generation on the Education Excellence Day for they are the builders of the promising future, by God's will.

His Highness Sheikh Tamim bin Hamad bin Khalifa Al Thani
Heir Apparent
Chairman of the Supreme Education Council
